THE NEW-YORK BATH,

For Ladies and Gentlemen, No. 17 Chambers-street,
nearly opposite the Rotunda.

For warm, cold, shower, sulphur, and medicated Bathing,

Has, under the care of a new occupant, been thoroughly cleansed, painted, and put in perfect repair; good attendance provided; a distinct front entrance made to the Ladies apartments, and the whole Establishment is kept comfortably warm by stoves during the fall, winter, and spring. The good effects of the Sulphur Bath, as a remedy in cases of eruptions on the skin, and of cutaneous disease generally, are so well known, as to render remark unnecessary.

The warm bath is more conducive to health than any luxury which can be enjoyed in a populous city; its beneficial effects are partially described as follows:—

The celebrated Count Rumford has paid particular attention to the subject of Warm Bathing; he has examined it by the test of experiments long and frequently repeated, and hears testimony to its excellent effects. It is not merely on account of the advantages, says the Count, “which I happened to receive from warm bathing, which renders me so much an advocate for the practice; exclusive of the wholesomeness of the warm bath, the luxury of bathing is so great, and the tranquil state of the mind and body which follows, is so exquisitely delightful, that I think it quite impossible to recommend it too highly, if we consider it merely as a rational and elegant refinement.” “The manner in which the warm bath operates,” (he continues,) “in producing its salutary consequences, seems very evident. The genial warmth which is so applied to the skin, in the place of the cold air of the atmosphere, by which we are commonly surrounded, expands all those very small vessels, where the extremities of the arteries and the veins unite, and by gently stimulating the whole frame, produces a full and free circulation, which, if continued for a certain time, removes all obstructions in the vascular system, and puts all the organs into that state of regular, free, and full motion, which is essential to health, and also to that delightful repose, accompanied by a consciousness of the power of exertion, which constitutes the highest animal enjoyment of which we are capable.”

N. B. As the Bath is generally much occupied on Saturday evenings and Sunday mornings, it is recommended to those who would wish to enjoy the bath and avoid the crowded moment, to call at other times. The support of the public will be gratefully received, and every exertion made to deserve it. For the Proprietor. WM. HAMILTON.

* * * Strangers will recognise the bathing house from the front being painted yellow.

IX. SEPTEMBER begins on *Thursday*, 30 days, 1825

The sand or the sun's rays—but God for thee
 There is no height nor measure; none can mount
 Up to thy mysteries. Reason's brightest spark,
 Tho' kindled by thy light in vain would try
 To trace thy counsels, infinite and dark;
 And thought is lost, ere thought can soar so high,
 Even like past moments in eternity.
 Thou from primeval nothingness did'st call
 First, chaos, then existence—Lord on thee

X. OCTOBER, begins on *Saturday*, hath 31 days. 1825

Eternity has its foundation ; all
 Sprung forth from Thee : of light, joy, harmony,
 Sole origin --all life, all beauty, thine ;
 Thy word created all, and doth create ;
 Thy splendor fills all space with rays divine
 Thou art, and wert, and shall be glorious, great !
 Life giving, life sustaining potentate.

XI. NOVEMBER, begins on *Tuesday*, 30 days. 1825.

Thy chains the unmeasured universe surround :

Upheld by thee, inspired with thy breath :

Thou the begining with the end hast bound,

And beautifully mingled life and death ;

As sparks mount upwards from the fiery blaze,

So suons are born, so words spring forth from Thee !

And as the spangles in the sunny rays

Shine round the silver snow, the peagantry

Of heaven's bright army glitters in thy praise.
 A million torches, lighted by thy band,
 Wander unwearied through the blue abyss;
 They own thy power, accomplish thy command,
 All gay with life, all eloquent with bliss—
 What shall we call them? Piles of chrytal light?

II. FEBRUARY, begins on *Wednesday*, 28 days, 1826.

All this magnificence in Thee is lost.
 What are a million worlds, compar'd to Thee?
 And what am I, then? Heav'n's unnumber'd host,
 Though multiplied by myriads, and array'd
 In all the glory of sublimest thought,
 Is but an atom in the balance weigh'd
 Against thy greatness—is a cypher brought
 Against infinity! what am I then? Nought.

III. MARCH, begins on *Wednesday*, 31 days. 1826.

Nought—But the effulgence of thy light divine,
 Pervading worlds; hath reach'd my bosom too;
 Yes, in my spirit doth thy spirit shine,
 As shines the sunbeam in a drop of dew.
 Nought—but I live, and on hope's pinions fly
 Eager towards thy presence: for in Thee

Though but an atom, 'midst immensity,
 Still I am something fashion'd by thy hand:
 I hold a middle rank, twixt heaven and earth,
 On the last verge of mortal being stand,
 Close to the realms where angels have their birth,
 Just on the boundaries of the spirit land.

 A monarch and a slave—a worm, a God!
 Whence came I here, and how? so marvelously

LONGWORTH'S NEW-YORK REGISTER.

POST-OFFICE.

The Post-Office is situated in Garden, near William-street.

RATES OF POSTAGE.

The following rates of postage are charged, conformably to an act of congress.

<i>On Single Letters.</i>	cents.
For any distance not exceeding 30 miles	6
Over 30, and not over 80 miles	10
Over 80, and not over 150 miles	12 1-2
Over 150, and not over 400 miles	18 3-4
Over 400 miles	25

Double Letters, or those composed of two pieces of paper, double those rates.

Triple Letters, or those composed of three pieces of paper, triple those rates.

Packets, or letters composed of four or more pieces of paper, or one or more other articles, and weighing one ounce avoirdupoise, quadruple those rates, and in that proportion for all greater weight.

Ship Letters, not carried by mail, are chargeable with 6 cents.

Newspapers.

Each paper carried not over 100 miles	1 cent.
Over 100	1 1-2

But if carried to any place within the state where printed, whatever be the distance, the rate is only one cent.

Periodical Magazines and Pamphlets,

Are rated by the sheet.

Carried not over 100 miles, per sheet,	1 1-2 cent.
--	-------------

Not Periodical.

Not over 100 miles, per sheet,	4 cents.
Over 100	6

Letters and newspapers are delivered out of the office every day, (except Sundays,) at all hours from the rising to

the setting of the sun; and on Sunday from 9 to 10, and from 1 to 2.

Newspapers, to be forwarded by mail, should be enclosed in a cover, and left open at one end, and the number of free papers, and those for subscribers respectively, endorsed on each packet; and all newspapers, for each post-office, should be enclosed in one package provided they do not exceed twenty in number. If a *letter*, or *memorandum* in writing, is contained in any newspaper, the person who deposits the same, forfeits *five* dollars, and the package becomes liable to letter postage.

Letters to be sent by mail, should be addressed to the places of their destination *in the clearest manner*; they should always be directed to the nearest post-office, if the person to whom addressed does not reside where there is an office, and the name of the state ought not to be omitted; letters are often missent, from their ambiguous directions; a punctual attention to this rule may prevent delays and miscarriages.

If an abatement of letter postage be claimed, the letter must be opened in presence of the post-master, or one of his assistants; and if such letter should, instead of being overcharged, happen to be undercharged, the deficiency must be made up by the applicant.

All letters which are lodged to go by the British Packets should be distinguished by writing *per packet*, for there are places of the same name in the United States, similar to those in Europe.

Letter Carriers. James S Reynolds, Elias Lynch, Archibald Forrest, Michael Noe, Ford Noe, and Henry Tyson.

The MAP OF THE CITY, for sale by T. LONGWORTH, No. 15 Pine-street, has marginal letters to correspond with the preceding list; by the aid of which, a total stranger in the city may instantly find any place desired; for instance, 15 Pine-street is sought for; turning to a list of streets he finds "*Pine-street, H, n, leads from Broadway, &c.*" at the spot on the Map. found by casting the eye downward under big *H* on the top, and opposite little *n* at the side, he discovers the street; noticing that *Pine leads from Broadway*, he is instructed where the numbering commences, and thus may conclude No. 15 to be in the vicinity of Nassau-street. It is at the corner, where will be found

AT no former period has the publication of the Directory been so urgently demanded; and no preceding volume has more eminently merited public patronage, if indeed, the most unwearied labour in our vocation, attended with unusual difficulties in completing our task, be admitted as confirming our claim to public support.

Many will be surprised to find no increase in the number of the names contained in the book. It is true many new buildings have been erected within the year; but it must also be noticed that a great many have been demolished, and the houses recently built are mostly calculated for single families: and, by the bye, they are but so kind of edifices, not such as our forefathers erected with a view to solidity and durability. Moreover, it has become necessary to adopt rules to prevent the increasing bulk of the book. The insertion of many names heretofore, has been of no benefit to purchasers; and we are warranted in regulating ourselves by this consideration. The lowest classes of society, persons not permanently occupying tenements, and people of color, may with propriety be omitted. We have also condensed the information to one line, where firms are constituted by the addition of the word "Son," or "Company." A most scrupulously accurate investigation of the mercantile, professional, manufacturing and business portions of society must, ere long, be the limit of our operations. Our work this year will be found as valuable as any former one, and more serviceable than usual from the vast number of alterations and additions which it embraces. It contains about 5 to 6 thousand new names, and nearly ten thousand alterations.

Another source of great surprise to the public, is the very limited number of Directories that are sold; and some would fain persuade us more would sell if the price were reduced. We know better: besides, we cannot submit to the degradation of putting our labours too cheap in the market; and we can shew the opinion incorrect, by reference to the record of last year's purchasers. Among those who do not purchase, are to be found the names of our most wealthy merchants, and extensive traders—men whose business renders a Directory necessary—yet *never buy!* What touches us nearly, is, that these people allow themselves to call upon us during the publication of the book, for references and information collected by us at considerable expense, and arranged with the most arduous labour, but who never contribute in any manner to our remuneration. The truth is, that among merchants few purchasers are to be found. There is a far greater proportion of purchasers among the gentlemen of the law, than among any other class of our citizens: in acknowledgement, we have this year inserted some information exclusively for their convenience.

Now, we could suggest the organization of a society that would produce more beneficial results than one lately instituted in this city, which, from certain causes, as we apprehend, must fail in effecting the desired reform: Let the purchasers of the Directory form a society, and exact penalties for the benefit of the Orphan Asylum, from every person who should be guilty of lending the book.

“ Write ye this, Wo unto him that buildeth his house by unrighteousness, that useth his neighbour's service without wages, and giveth not for his work.”

Jeremiah xxii.

Many a rich merchant would then be compelled to come forward and purchase, and the example to the rising generation would be of immense service; for, with Dr. Paley we hold that pilfering is pilfering still, be it effected how it may; and we, upon the effectual organization of such a society, will present the sum of one hundred dollars to the aforementioned charitable institution.

Reputable people have no conception how many evade the purchase of the book by borrowing: as an example, we could point to one individual who is said to receive from fees of office a sum not much short of 7,000 dollars per annum, who *buys not*: but the fair mechanic and trader, who find the book necessary, they buy it, and to such we tender our sincere thanks; no exertions nor expense have been spared to render it deserving their approbation: the present is a period of unusual prosperity in this city; all classes of society have abundant employ, and this has caused great difficulty in procuring men competent to the task of collecting names: but we have met these and all other obstacles with a more powerful exertion of industry and application: we have already tested the accuracy of our book by numerous examinations, and it is submitted to public patronage and inspection in the confident trust of continuing to merit the approbation of its supporters. The irregular numbering of the houses, continues to be a subject of just complaint: This, however, with filthy streets, must remain a nuisance, until * * * * *

We are in duty bound to remark, that we continue at our pleasant and agreeable store, to keep for sale, articles of Stationary, &c. including Quills of every quality, which we would recommend to our friends and the public as eminently meriting attention both for quality and price. Also, our corrected Maps of the City, with the WARDS newly designated.

July 1, 1825.

1825—1826.

LONGWORTH'S
NEW-YORK DIRECTORY,

For the Fiftieth year of American Independence.

The lanes, alleys, slips, &c. are always mentioned; the word street is not used, but is always understood;—so also of the words store, or counting-house: the place of business is invariably placed first.

h. stands for house—n. near—c. corner.

IMPORTANT OBSERVATIONS TO THOSE USING THIS
WORK.

In the arrangement observed through this Directory, the christian names of those, where there are more than one of the same surname, are alphabetically arranged. The firms are always placed at the last of those of the same name; when females are known to be widows, they are so designated, and placed immediately preceding the firms; and a scrupulously strict alphabetical arrangement is observed throughout the work, carefully conformable to the correct spelling of the name.

Where necessary in the upper part of the city, the information is made explicit and satisfactory, by reference to the next nearest street.

In searching for a name, the inquirer must know the proper spelling: a person seeking for — Lawrance will not find the one sought for if he take the direction appended to — Lawrence: so also for — Harison, he should not seek among the Harrisons: for — Neilson, he should not look for — Nelson. The causes of all charges of inaccuracy in this work, 99 times in 100, is attributable exclusively to the want of knowledge in the person seeking the name; therefore, *you must know how to spell the name sought for.*

Observe that the U is not interchangeably arranged with the V, but takes precedence throughout the alphabetical arrangement of the work.

NEW-YORK

Lombard Association,

No. 66 Chatham-street.

Incorporated by the Legislature of the State of New-York, 8th of April, 1824, Capital \$200,000, for the sole purpose of LENDING MONEY on deposits of Goods and Chattels.

This Association continues to make liberal advances on all Articles of Merchandise, Plate, Watches, Jewellery, Trinkets, &c. in all sums from one dollar upwards; thereby affording great facilities to Merchants, Traders, and Shopkeepers, residents of the city, and also to Strangers and Travellers, who by misfortune or accident may require present relief.

The Rates of Interest charged are fixed by Law as follows.

Loans of \$ 50 and under,	15	per cent. per ann.
50 to \$ 100,	12½	do.
100 to 200,	10	do.
200 to 300,	9	do.
300 to 500,	8	do.
and above 500,	7	do.

Great care will be taken in the preservation of all Property deposited with them, which will also be kept covered by Insurance against Fire and Burglary.

Applications for Loans may be made at the Company's Office, personally or by letter; or to either of the Directors, at their places of residence.

DIRECTORS.
